NEXT GENERAL MEETING

Our next General Meeting will be held at the National Fitness Council, 50 James Street, Perth on Wednesday the 14th November, 1962 and will commence at 8.0 p.m. sharp.

INSTRUCTION PERIOD FOR NOVEMBER.

For this evening Ken Wiggins hopes to have a selective range of films on different types of angling, etc. These films were promised for last month's General Meeting, but unfortunately Ken was unable to secure them for that evening, so lets hope he has a modicum of luck for this coming meeting, and we see ~~what~~ a fish looks like - it's that long since I've seen one, I have just about forgotten what they do look like.

LAST COMMITTEE MEETING (October)

The last Committee Meeting was held at the residence of Hal Cook and his good wife Noreen, to whom we are indebted for their hospitality. Our many thanks to Hal and Mrs. Cook and also to the other ladies who helped with the supper. The business of the evening was quite extensive and was not concluded until 10 p.m.

NEXT COMMITTEE MEETING (November)

The next Committee Meeting will be held at the residence of Allan and Mrs. Bunnett :-

ADDRESS:

APFLEECROSS.

MOORE RIVER FIELD DAY - COMBINED CLUBS

As I believe that there is to be a screed on the pros and cons of what is what at this venue, the following particulars are only generalities and they may be varied or altered by November 17th, but to any member who might contemplate going, but who cannot get along to the November General Meeting the particulars are more or less as follows :

Members to report in before 4 p.m. Saturday at Car Park.

Members will receive a card and be officially entered in the attendance book.

Members to receive final briefing and info. at 4.15 p.m. and leave for beach together at 4.30 p.m. ALL CLUBS

Weigh-in 8 a.m. to 9 a.m. No fish will be weighed after 9 a.m.

GENERAL COMMENTS:

The sweep will run as usual 2/- for members; 1/- for juniors.

Three Sections as usual. (1) Heaviest Scale Fish; (2) Heaviest bag of Scale Fish; (3) Heaviest Shark or Ray.

Junior Section apart from Seniors. Heaviest bag of Scale Fish.

There is apart from our usual Club fishing Section, to be an additional trophy donated by Mr. P. Crackel. This will be won by the Heaviest bag of Scale Fish.

In addition to the above, three trophies have been donated by the three participating Clubs, and are as follows:

Off-Shore Angling Club trophy.

Heaviest Bag of Fish including Sharks and Rays.

Fremantle Angling Club trophy.

Heaviest Skin Fish. Sharks or Rays.

Surf Casting & Angling Club of W.A. (inc.) trophy.

Heaviest Scale Fish

This venue should prove to be most interesting and the competition should be of a high standard. Let's make it a good week-end by a roll up of as many members as possible.

Watch your speed through Wanneroo.

DRY CASTING - OCTOBER 7th, 1962.

Twenty four members and four juniors turned out to the casting to witness one of the best mornings we have had as far as distance casting goes and no fewer than fourteen members cast 300 ft. or better. in the open Bill Bridger topped the list with a nice cast of 370ft. followed by Bob Tucker 350ft. and Bob Lilly 346ft.

In the distance handicap event Bill Bridger got away three excellent casts one of which was 395ft., and Bob Jensen had three of his best casts ever, so much so, that he now dropped his handicap down to 95ft. Congratulations Bob, anyone who can get his handicap below 100 is really in the top bracket. Bob finished with a score of 345 - 141 - 486 followed closely by Allan Livesey who is right back at his top with 314 - 171 - 485, with Ron Kildahl also having a good day with 290 - 177 - 467.

The double-handed accuracy saw Norrie Cross still out in front with a very good score of 50/80 followed by Noel Knight with 47/80 and Allan Livesey 43/80. Norrie Cross, Noel Knight, Allan Livesey, Hal Neil, Noel Wilkerson, Allan Burnett and Bob Jensen all scored with each cast, and Bill Utting had the honour of scoring the only bull for the event. (Have you been practising Bill?)

In the single-handed accuracy the scoring again was not too good with the exception of Norrie Cross 25/40, Bill Bridger 24/40 and Bob Tichbon 19/40. Norrie and Bill were the only two to score with all four casts, and Tom Smith and Norm Clark both had the good fortune to score bulls. Norrie Cross had an excellent day in the accuracy events as he finished first in both events and was the only member to score with every cast .

The Junior Section of our competition still lacks numbers, even so there is plenty of enthusiasm among those that come, and I am sure if a few more of the juniors came along they would have a good mornings sport. Doug Clegg topped the score in the distance event with a good score of 254 - 270 - 524 followed by Rick Jensen 244 - 222 - 466 and Ken Hunt 183 - 270 - 453. In the double-handed accuracy event Don Bridger had a very good score of 33/80 including an excellent 19 at the furthestmost target. In the single-handed accuracy Rick Jensen finished on top with 15/40 followed closely by Ken Hunt with 13/40. Good going lads, keep it up.

DRY CASTING Cont.:

JUNIOR TOTAL POINTS

D. Bridger (59)	341	D. Clegg (47)	98
R. Jensen (50)	330	R. Utting (a)	97
K. Hunt (39)	128	N. Knight (a)	25

Well as to be expected with such good distance casting the axe must fall, and following is a list of adjusted handicaps :

SENIORS

W. Bridger	84 - 75	M. Doscás	170 - 147
R. Jensen	141 - 95	W. Utting	174 - 148
K. Lilly	128 - 117	N. Wilkerson	161 - 151

Dry Casting Cont:

With the half way mark reached the competition has reached a stage where it is anyone's guess. At present Norrie Cross and Noel Knight have a good break on the field but anything can happen as Bob Lilly, Bob Jensen and Bob Tucker are having a keen tussle for third place with Bob Lilly just having the edge and there is quite a few others right on their heels, anyway the following is a list of scores as they stand at present, with the October scores in brackets :

	<u>SENIOR TOTAL POINTS</u>	
N. Cross	(111)	549

PICNIC DAY AT LAKE LESCHENAULT

This was quite a successful outing and I think that all who attended thoroughly enjoyed themselves. The weather was pleasant, though the breeze off the lake was a little fresh and demanded a pullover, though regardless, I think all Mums, Dads and kids especially voted it as tops.

Several casting events were held. There were single handed blob events with the target being a tube about twenty yards or so out from the shore. The first event was for the ladies, which was won by Mrs. P. McLennan who made no mistakes in showing how - Pat is really quite accomplished with this gear. The only one to score a bull was the editor's wife, to which I claim no credit. As a matter of fact most of the ladies did well. Even though I'm likely to be chastised later for saying this - did better than the men.

The men's event was won by Bob Jensen - most convincingly, and the placegetters were Bob Lilly and Allan Sunnett respectively.

All in all it was a most enjoyable outing and once again we owe our thanks to Ken Wiggins who made it possible.

FIELD DAY GARDEN ISLAND - 13TH & 14TH OCTOBER, 1962

Weather conditions : Light westerly, ideal fishing conditions, with the beaches in excellent shape with deep water close to the shore. It looks now as if the beaches are settling down and could be inviting in the future and likely spots to visit or keep in mind.

The third bay north returned several good bags of fish, as an example 150lbs. of Tailor, Mulloway etc., while further north again around the Gun Position also yielded both Tailor and Mulloway, approximately 100lb. The south end was barren though - with hardly any fish taken - though Lofty Griffith did mention in the morning several sharks were following baits in, though would not respond or become co-operative at all.

Twenty five members plus three visitors and five juniors was the total tally of figures and bods who attended this venue. Though not large in number most of the stalwarts of the Club were there. I daresay that various members had more important things to do, but it would be nice to see more members along to these outings. Even if we don't always catch fish like we did on this occasion, we all seem to thoroughly enjoy ourselves with our mates.

Nine members travelled over on the first boat to the Island. On arrival Ron Shirley, Ron Kildahl and George Greenham headed straight over to the back beach and then north. Ron Shirley took his trolley over and he found it very handy later in the evening to help convoy fish etc.

The balance of the bods retired to the large hut and prepared for lunch and a bit of a yack (you can guess what the subject would be). Ted Savage, Ian McLennan, Tiger Lilly, or perhaps a new title "Barb" Lilly made an early start after lunch and a cuppa to the Gun Position, which is quite a considerable walk. On the way up along the road the lads spotted a big black snake and after jumping up and down on the road throwing stones at it etc. and after waiting a decent interval to give it an opportunity to get a couple of hundred yards into the scrub they made towards the spot where it had retired, firmly determined to despatch same. I guess these lads have learnt how to treat a snake from yours truly.

Having lunched and prepared the scales for future use I

strolled over to the beach and made my way up north where I found the lads who had set out earlier settled in behind a likely looking reef and where they had also rigged themselves up with a quite comfortable camp. These lads have had the experience and know how to make things comfortable for themselves out of practically nothing. Ron Shirley was having 40 winks, evidently conserving his energy for what was to come.

A little later Bill Utting strolled by after looking over the south end and camped near by. Bill evidently decided that this area looked better than what he had seen and he wasn't far wrong in his decision, for shortly after 4 o'clock Ron Shirley went into action and soon had a very nice Tailor kicking sand on the beach and this became the pattern for the rest of the afternoon, and it sure appeared that Ron had his name on all of the fish in that area, for he certainly had a monopoly for a while. Bill Utting and Ron Kildahl finally landed a Tailor each, and then George Greenham went into action and it wasn't long before he had his first. Just when I was cogitating "What the heck is wrong with my position" and it appeared that I might have to move down closer to the reef, when on slowly retrieving a Mulie bait "Dingo" the game was on and I was in the money. One of the best Mulloway that I have caught for quite a while was fighting me desperately for it's freedom, and for quite a while it was touch and go who was going to be the winner, but a light drag and judicious treatment bought him with the following wave up on the beach, beaten. This Mulloway stacked on such a show that the lads watching thought that it was a king size Salmon, and it could have been by the work he gave me. I had never had one fight quite like that before. Even if I don't have the fortune to catch another fish for a while the thrill of landing that one will keep me going.

In the mean time Ron Shirley was still fishing and landing Tailor when suddenly after just executing one of his near perfect casts, away went his drag and out went yard after yard of line with what we later found out was a 24lb. school Shark giving him battle. (Just what grade that Shark was I don't know, but it must have been at least High-School). Ron did a mighty job in landing this Shark on light gear and honours go to George Greenham in his confident and sure hand with the gaff. He made no mistake and ran the gaff in the shark's soft underpart and in quick time had this added to Ron's growing mound of fish.

About this time Bob Jensen, Sec. Houghton and Kevin Clugstone and of course young Rick strolled by and set up base further down the beach. Rarely do Bob and young Rick miss a field day, they are really keen. Sec. was soon in business with excellent catches of both Tailor and Mulloway. Though the fishing was not furious, it was always interesting.

Kevin Clugston had a mighty fine outing and one that I am sure he will not forget for quite a while. The four Mulloway he landed did him credit and his 8½lb. Mulloway was a beauty. His effort should inspire future juniors.

Bill Utting and myself carried on and landed several more Tailor. These fish fought every inch of the way, even though not big Tailor, 2 - 2½lb., they were in excellent condition and really stacked on a show, or is it that we haven't caught Tailor for quite a while. Shortly after 10 o'clock Bill and I packed our gear and made back towards base. The two Ron's and George continued to fish on.

Having arrived back at base we boiled the billy and had a cuppa and a natter with Norm Clark who reported the Rifle Range as being barren and fishless. With that we decided to rise early and dash over to the back beach early in the morning and have another crack at them. This we did and Norm opened his account by catching two Tailor. Further down the beach Kevin Clugston carried on in bright fashion by landing several Tailor. Ron Shirley also caught another three which brought his total of Tailor to 16, which was certainly no mean effort. Ron finished with a total of 54lb. of Tailor and Shark.

As it started to get lighter so the whiting started to strip out baits and it was time to pack and get back to the hut for a quick breakfast and prepare for the weigh-in, which kept both Norm Clark and myself busy, for nearly all the lads had fish to weigh-in.

Up by the Gun position the Mulloway came on to bite around 6 o'clock. Ian McClennan was first to beach a fish, though around the corner by the reef I believe Nick & Charlie Crouch caught Tailor fairly early and also Alf Rutland and Phil Evans were in the money. Back down the beach Mick Doscas and Bob Tichbon were standing there with expectant looks on their faces but no fish on the sand, but that didn't stop Ian McClennan from getting a fish or a bite from every cast. Also Ted Savage "Barb" Lilly and Hugh Gregory went into action and it wasn't long before they also had fish behind them, but Mick & Bob might have just as well been casting up into the

sand hills for all the attention they got from the finny fellows. Two frustrated fishermen.

Further up the beach Bob Tucker landed a couple of nice Mulloway and Tom Smith knocked off a couple of nice Tailor, but just down from Bob and Tom, Don Beadon couldn't take a trick, nor could his mate, so in desperation Don decided to give it a dash further down the beach near Ted Savage which eventually rewarded him with a nice Mulloway and also a jag hook in one hand which securely fastened two fingers together and for a while, Don didn't know whether he was Arthur or Martha with the jag securely in his hand and also in the fish which was far from dead, and every time it jumped or kicked so the jag went a little deeper. Bob Lilly went to his aid, so also did Ted, Ian and Hugh and it wasn't long before they got the fish off the hook. Though to get the jag out of the two fingers was a tedious and difficult task and to say the least most uncomfortable for Don who I am sure would have liked to have said many "Ohs" and "Ahs" if he hadn't have had so many mates around him. To the boys who stopped fishing, while there were fish on the bite, go my respect and once again goes to prove that comradeship and help is always to the fore when you are with the Club. Fortunately fore-sight in the carrying of sharp files, pliers, band-aids and flavine by some of the lads made the difficult job of removing the jag possible, and something that those of us who don't carry such things will do in the future.

The weigh-in as mentioned was very interesting and some very nice fish took their place on the scales. It was good to see a good catch of fish on a Field Day again, which incidently brings our total of fish caught for this year up to 987lbs., which is bringing it more into line with old times, and with the weather improving maybe our figures will improve also.

Quite a few photoes were taken of the lads with fish caught for entry into the Club Album, which incidently is growing into quite a pictorial story of our captures on Field Days.

So closed another happy Field Day and this time it is farewell to Garden Island for quite a while, as our future Field Days for the next four months are from the mainland, though I daresay quite a few of the lads will be returning to do battle over there on off Field Days.

My congratulations to the award winners and it is amazing, her I am once again in this category, getting consistent, just

goes to show that anything can happen. My special congrats. to junior Kevin Clugston on his fine effort and let's see you along again Kevin for a repeat performance.

Let's hope that the November Field Day will bring forth a good turn-up of members at the Moore River. Please wear badges etc., for easy club identification. All members to report in at the Car Park. Watch your speed when going through Wanneroo townsite for they have a traffic inspector on duty there who lurks behind trees, watching and waiting for the unwary who breaks speed and any other regulations. Catch fish but don't get caught by the cop!

Hoping to see you all at the Moore and until then,

Tight Lines

JIM STRONG F.D.O.

JUST A FEW DO'S AND DONT'S

Don't forget your water bottles for it can be very hot and dry on the beach up at the Moore, and if the fish are biting who want's to walk back to the camp, when it could be avoided.

Don't forget your sun-glasses, and don't forget to wear them for the beach can cause glare and eye-strain.

Don't forget to check your gear and make sure that your gaff has a cork or some protection on the receiving end, you don't want to gaff yourself or your mates.

Don't forget your pliers etc., in case of a hook accident.

Don't forget to wrap your bait well with newspaper, this will help to keep it cool and fresh.

Don't forget to COME ALONG.

RE LEGAL LENGTH OF FISH

Constitutionally and morally we as members of this Club are bound to help in all phases of our favourite pastime - piscatorial pleasures (fishing to you), and to do so, one of the cardinal points in the continued successful fishing trips that we enjoy, is to observe the laws of legal length of Fish, for as we all know, if there were no such laws what chance would we as anglers have of ever catching good sized fish.

The following are the names and legal length of fish as authorised by the Fisheries Department of Western Australia:

Bream (or Black Bream)	9½	inches
Bream, Pig-faced (or Nor-West Snapper)	9	"
Bream, Yellow-fin	10	"

NOTED FROM "TOURNAMENT AND SURF CASTING" by Geo. Wynne.

"A clean reel is a pleasure to use, and indicative of the angler's approach to the sport.

By treating the surf reel as a line container and NOT a winch, the angler will find that it will give long service. The reel is only a line winder. It is the rod that works for you, if you will let it.

The loss of a hard won fish, at a time when victory is in sight, is generally the outcome of lack of attention to some small detail of tackle."
