CLUB ETIQUETTE

MEETINGS

The monthly GENERAL MEETING is usually held on the second Wednesday of each month at 8pm. All members should endeavour to attend the meeting so as to keep up with club matters.

DRYCASTING

Casting is usually conducted on the first Sunday of each month. Instruction is given to all new members and a competition is conducted to improve and maintain the standard of our members casting.

FIELD DAYS

These normally follow each general meeting on the ensuing weekend. It is compulsory for anglers to attend both the sign-on and the weigh-in. Anglers who cannot attend the sign-on for work or other unavoidable reasons may make prior arrangements for a late sign-on. However, only under very exceptional circumstances will failure to attend weigh-ins not be penalized with the loss of points acquired during that field day.

It is the Field Day Officer's duty to inform the committee of any anglers who fail to attend the weigh-in. It is the committee's duty to decide what action is to be taken.

Disputes may be taken to the committee.

Entries for Game Fish badge, Club Records and Open Fishing Competitions must be lodged with the recorder within 30 days of capture.

COMMITTEE MEMBERS

Please notify the Treasurer and Reel Talk Editor of any change of address or phone number.

GENERAL ETIQUETTE

If you intend to resign from the club a letter of resignation should be forwarded to the Secretary.

Please assist the Treasurer by paying your subscription within 28 days of the Annual General Meeting.

Arrears of 3 consecutive months may cause forfeiture of membership.

# POSITION VACANT...

## *Social Organiser*

AT THE ANNUAL GENERAL MEETING OUR NEW PRESIDENT GRAHAM REELEY WAS UNABLE TO OBTAIN A SOCIAL ORGANISER FROM THE MEMBERS PRESENT. THIS IS NOT A GOOD POSITION FOR OUR CLUB TO BE IN AS SOCIAL ACTIVITIES ARE A VERY IMPORTANT PART OF OUR CLUB - NOT TO MENTION THE FUND-RAISING. IF YOU ARE INTERESTED RING GRAHAM AND LET HIM KNOW. THE OTHER ALTERNATIVE IS TO CO-OPT A CLUB MEMBER TO DO THE JOB FOR A THREE-MONTH PERIOD AND IF YOU ARE ASKED PLEASE DON'T REFUSE!! GIVE IT SOME THOUGHT.

### T-SHIRTS AND WINDCHEATERS

These are available at our next General Meeting (October) and it is important that the garments are paid for that night!! Please bring the money!!!

The Windcheaters are \$30.00 and the T-Shirts \$11.00

Two mates went fishing and, after reeling in yet another empty hook, one said "I wish I knew what's pinching all the bait." His mate replied: "Fish fingers?"

PRESIDENT'S REPORT

It is good to see the subs are coming. because if the members don't get behind the club and its social evening, there will be no Dinner Dance at the end of the year. Because we have not got the phone books this year. We will try and apply next year, so members get behind the club.

MISSING are the 100kg scales. If you have them please ring Ian Cook and tell him.

The club has purchases the magazine called "Seascribe" for the members to read. Please if you take it to read bring it back so another member can read it

The City of Stirling is having a night on the 18th Oct. to talk about the oval. Mel Kelly and Bruce Bennett are attending on behalf of the club. Thank you fellows, great to see two new members taking an interest in the running of the club.

George Holman has the tee shirts and windcheaters, if anyone has ordered them, see George.

Thanks must go to Dennis and Eric for volunteering to do cheese and biscuits, and I will bring the drinks to the General Meetings. We still have not got a social Organiser, if we cant get someone to do the job we cant expect much for your Dinner Dance at the end of the year.

We will have to form a sub committee to run it. and I will nominate anybody from the floor. So be prepared to give a hand.

The committee meeting next month will be on 12th Oct at Frank Sutton's place, thanks Frank. This is because half the committee will be away in Esperance.

Dont forget to support dry casting and fishing events.

GRAHAM REELEY

P.S. Ran into Tony Richardson and wife Jackie. If going down to Esperance a new manager has taken over Esperance Bay Caravan Park. His name is Bob Cabins New \$26 per night a double + 3 children or 4 adults. Phone (09C) 712237 for bookings.

FISHED DAY REPORT

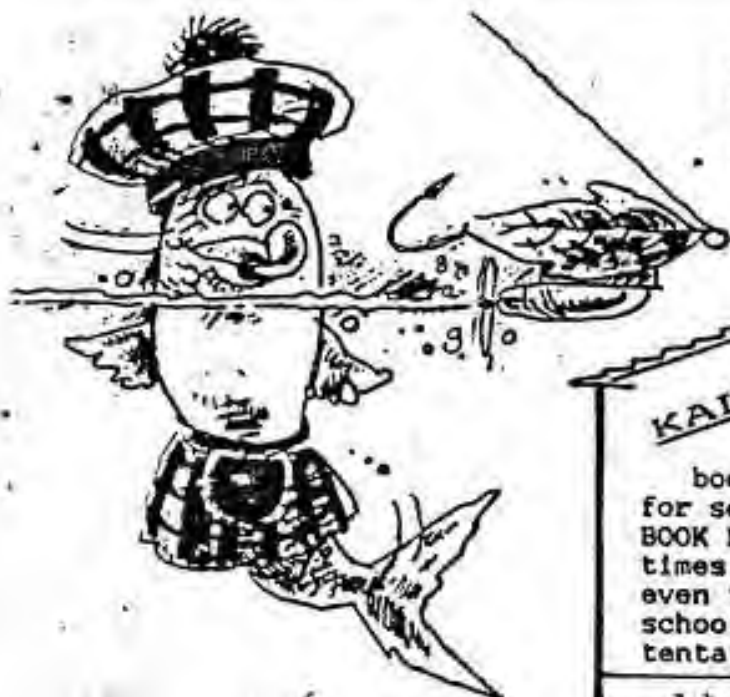

Jurien Bay 16th-17th September.

The weather on the Saturday was fine with light S.W. winds and a low swell. Sunday morning was again fine and warm with light N.E. winds. The tides were reasonably low.

Tony & Philomena D'Alonzo fished the "Kingle" hole North of Jurien Bay while the rest fished the North and South mole of the fishing boat harbour. Those on the north mole had some small skippy turn up late in the afternoon while those on the south mole had empty reef bags. Malcolm Head has found out that tight reel drags lead to internal haemorrhaging of the reel. He had a fish (may be a ray) take a 100 metres of line after the reel stopped functioning. An attempt was made to attach the line to another rod and reel but by this time the fish had gone. Peter fished all night on a very cold breakwater and did not get a single fish. The rest of the people had a good meal and a comfortable night camping in the garage at the Osborne's new house. This is very preferable to sand, wind and rain.

Sunday morning we again all fished (bar the D'Alonzo's) the north mole of the fishing boat harbour with slightly better results with a few skippy. Tony & Philomena did somewhat better on fish weights but were fighting the weed all weekend as most of the beaches were weeded up. We all had a pleasant trip back with a lot of wild flowers out on the coastal plain.

# MARRON FISHING GEAR - NEW RULES FOR 1990

New legal specifications for marron fishing gear will come into force for the next fishing season, due to open at midday on Monday 1 January 1990.

The Fisheries Department has prepared this information sheet to summarise the new specifications for gear manufacturers and retailers in advance of the opening of the next season.

There are an estimated 25,000 West Australians who go marroning in season, all of whom will need to upgrade their fishing gear to meet the new specifications.

Media campaigns in the metropolitan area and the South-West will be commencing in August to promote the new fishing rules, and encourage people to take out their licences early. At the same time we will be promoting places where people can either buy the materials to upgrade their existing gear, have their gear upgraded, or buy gear meeting the new specifications.

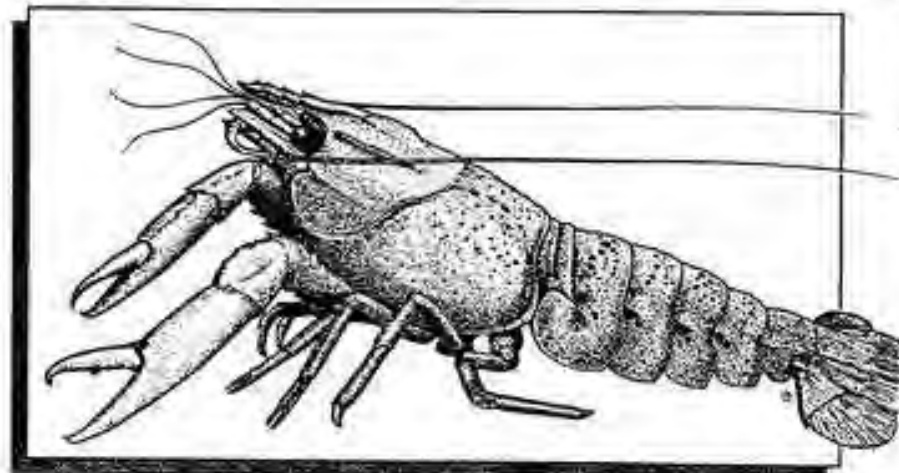

## Why new gear rules?

In 1987, after several seasons of plummeting catch rates, the marron fishing season was closed for two years to allow stocks to recover. A factor which contributed to the crash in marron stocks was the widespread take of undersize marron.

The review committee set up to examine future management for marron fishing identified setting minimum legal gear specifications as one tactic to reduce the take of undersize marron.

A complete summary of the Marron Fishing Advisory Committee's recommendations is available from the Fisheries Department as Fisheries Management Paper No. 26. The new rules flowing from these recommendations will be enforced under the Fisheries Act and regulations.

The marron fishing season will re-open at midday on Monday 1st January, 1990, and close again at noon on Wednesday 28 February 1990. The season will open for a further two weeks over Easter, from noon Saturday 7 April to noon Sunday 22 April 1990.

ment as Fisheries Management Paper No. 26. The new rules flowing from these recommendations will be enforced under the Fisheries Act and regulations.

## Help look after W.A.'s marron

The new fishing rules and gear specifications for marroning are designed to help conserve the breeding stock, and keep marroning a sport for people to enjoy in future seasons.

To make these conservation measures effective we need the help and support of tackle manufacturers and retailers.

## New gear specifications

The only gear for catching marron permissible will be drop nets, scoop nets, or pole snares which meet the following specifications.

### Drop nets

All drop nets used for marroning will be required to have a rigid base of rectangular mesh.

The minimum individual mesh size must be 80 mm x 32 mm.

The Fisheries Department will be promoting this mesh as "marron mesh". The mesh may be either wire or rigid plastic grid with a maximum thickness of 5 mm.

The top hoop of the net may have a maximum diameter of 650 mm, and the bottom hoop must also be 650 mm or smaller. The side mesh of the nets is not specified.

A maximum of 6 nets will be allowed per person.

### Scoop nets

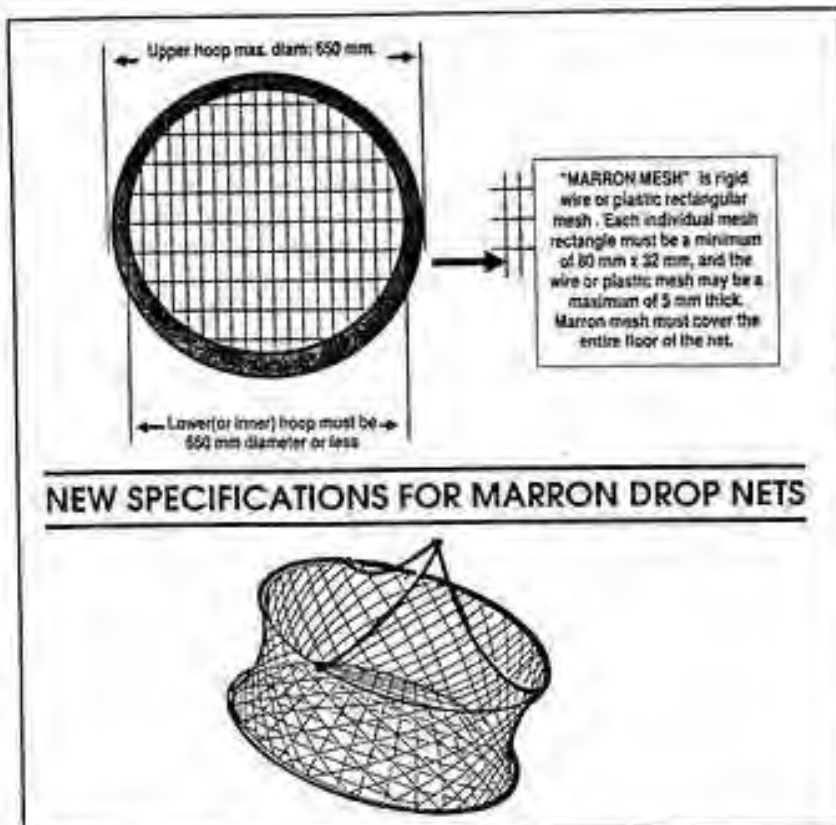

Fine mesh scoop nets will no longer be legal gear for catching marron.

Marron scoop nets will be a wire crabbing-style basket scoop with a maximum diameter of 375 mm across the top hoop, and a maximum depth of 210 mm. There must be no more than 6 vertical support wires, and a maximum of 75 individual mesh rectangles.

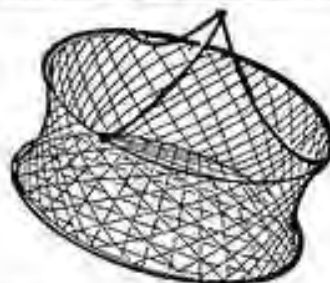

Handles may be no more than 1400 mm long. One scoop net may be used per person.

### Pole snares

Traditional pole snares consisting of a handle and a noose will be promoted for exclusive use in some specific areas of water in National Parks. One pole snare may be used per person.

## NEW SPECIFICATIONS FOR MARRON DROP NETS

New legal marron fishing gear (not to scale).  
For more information contact the Fisheries Department.

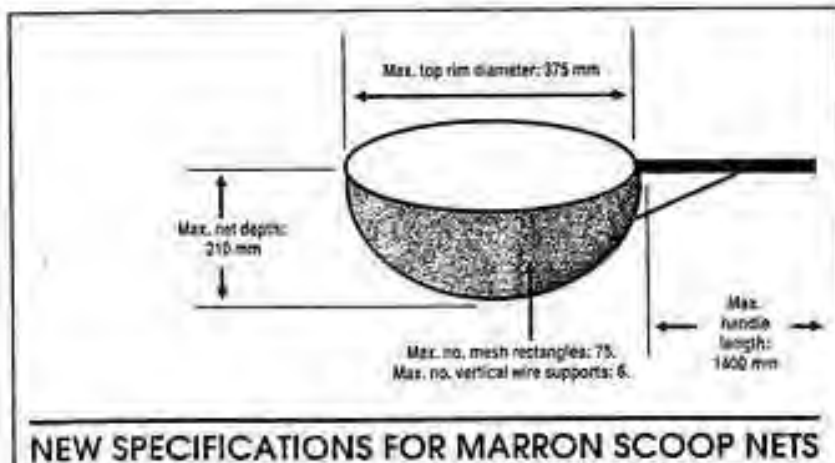

## Get listed

The Fisheries Department will be producing a listing of gear manufacturers and retail outlets who support the new marron gear. Inclusion on this listing is free of charge.

The listing will be supplied to marron licence holders, and distributed to recreational fishing clubs and community groups throughout the South-West to promote places where people can have their gear upgraded, or buy gear meeting the new licence specifications.

If you are prepared to support the conservation of marron and the new fishing gear, get your business listed.

Fisheries Department of W.A.  
Tel (09) 325 5988  
Fax (09) 325 3134

## NEW SPECIFICATIONS FOR MARRON SCOOP NETS

SEPTEMBER DRYCASTING

The good turn up at drycasting was probably due to the great weather: Fine, Sunny and not much wind at all.

The casting was up and down all day with Heath Holman casting with one hand due to a slight accident he had. While Heath cast one handed, G. Holman and G. Reeley, two of our top casters, sent the scorers running... either breaking off or casting out.

Eric Parker showed us what he is made of by winning the day with 220 points and winning the 112 gram event with 27 points, also the 56 gram event with 113 points

George Holman recovered well by winning the D/H acc event with 113 pts and Michael Head, the juniors, with 130 pts. When Michael casts seniors he'll know what real distances are !!

G. Reeley set the pace in the S/H accuracy with 26 pts which included a bulls eye. "Hot Shot" Parker was close behind with 23 pts.

Our next cast will be held on the Second Sunday of the Month, not the first as we have a long weekend, so see you down there on the 9th October.

Our next cast will also consist of a single handed open. Good to see Clive Maxsted down at casting, giving his dad a run for his money.

So see you there 9.am starting time.

PAGE FOURTEEN

AUDIT FOR YEAR 1988-1989

1. The Revenue Statement for the accounts Books balanced with statement, noting that a payment of costs for the Annual Dinner Dance (to Le Mirage Restaurant) was actually paid in July but taken up in June expenses:

Recording of revenue	28635.25
less costs (incl above)	7952.59
	<u>20682.26</u>
2. Due to availability of signatures a water and elec. bill (to the amount of \$425.13) was initially paid out of the General Account. This was done in order no interest payments are made. Monies were then transferred from the Kalbarri account to the General account.
3. For the revenue on the Annual Dinner Dance, payments for Veterans, Juniors and for visitors did not appear to have been processed correctly. Can only request for any future functions like this that ticket purchasers correctly state who they are buying tickets for and account for payment to reflect the discounted price of tickets accordingly.
4. For trophy locations where cash is involved, it is recommended that the funds go through the Treasurers books. This will allow correct statements of income and expenditure against trophies.
5. As the S.C. & A.C. accounts are relatively small (although of significance for the expenditures involved) it is recommended that a "manual" system be retained. Computerized systems do not allow easy transfer from outgoing to incoming Treasurer at the election of officers.
6. It is also recommended that the system be retained by various officers providing a statement of the source of revenue balance against the amount handed to the treasurer. Similarly a statement of where/who a cost is to be charged against when money is received from the Treasurer. This will assist the Treasurer keep his books up to date (say on a monthly basis) and correctly reflect S.C. & A.C. business.
7. From the Treasurers records a few chides were made against the Yearly Statement. Our review gave that the Yearly Statement was consistent with the books.

3. Review of the books highlighted some fundamental principals about the financial viability of S.C. & A.C. viz:

Social Activities generated a good revenue in that for the year the balance was \$1480.50 despite an amount of \$1100 being taken from this account for the purchase of a photocopier.

The General Fund of \$682, year balance looks healthy but in reality has the impact of the photocopier cost not being incorporated in this calculation.

Kalbarri house expenses exceeded rental revenue by approx. \$150. This could be further enhanced for tax purposes by proportioning some of the photocopying costs etc. against the Kalbarri house running costs. To this negative cash flow interest has to be added in the tax declaration. This calculation is under preparation by others.

When separating monies received from donors for trophies, if monies not run through the Treasurers books is taken into account, the variations could be greater than expenditures.

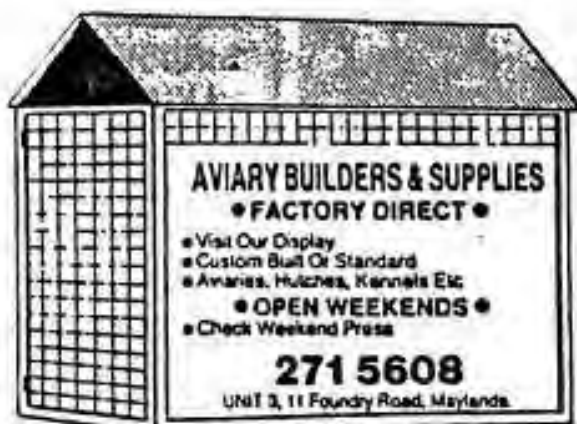

It is recommended that better separate records be kept, and committee members who purchase trophies ensure that expenditures match the wishes of donors.

(In the past records tended to show S.C. & A.C. general funds were supporting trophies to a large extent.)

5. Summary.

With the somewhat limited review and experience of Messrs Osborne and Strong it was found that the club's finances are healthy and the Exec. Committee have kept reasonable control and balance between revenue obtained and expenditures. It must be noted that a major contributor to this state of affairs is the revenue generated by the social organizer.

NOTES FROM EDITORS.

A letter has been received from CHARLIE GADIE advising us that he has now moved to Golden Bay. His new address is 84 Dampier Drive. Anyone wishing to visit will be more than welcome. His letter will be tabled at the next general meeting.

Thanks to Sid Whiting and family for their donation towards Reeltalk postage.

Department of Defence has notified us that there will be live firing on the Lancelin Range between Lancelin and Wedge Island from 6pm to 12pm on October 10 & 11 also from 8am to 7pm on October 17.

The editors are desperately seeking fishing stories or articles, either true, false or humorous to be included in the Reeltalk.

DEEPEST SYMPATHY TO ERIC PARKER  
ON THE RECENT BEREAVEMENT OF HIS  
FATHER FROM ALL THE MEMBERS OF THE  
SURFCASTERS
